IMT 10000 Telescopic Crane Let our telescopic cranes take on the heavy lifting. The IMT 10000 Series telescopic crane has a maximum lifting capacity of 10,000 lb (4535.9 kg) and a horizontal boom reach of 25' (7.6 m). Featuring our patented PentaBoom™ design, this crane is built for strength and control, and when combined with an IMT Dominator® mechanics truck, creates the ultimate service and maintenance truck. Standard Features: 25' (7.6 m) of boom reach Fully proportional "pistol grip" radio remote control Flip sheave boom tip Boom angle -10° to +80° Increased capacity Patented hook stow Patented anti-two-block device Radio remote control receiver Specifications: Model: 10000 (30') Crane Rating: 75,000 ft-lb Crane Weight: 2,480 lb Max Lift Capacity: 10,000 lb Max. Horizontal Reach: 30'10 " IMT Dominator® III The IMT Dominator® III body has been enhanced to meet the needs of customers who require more lifting capacity. The weight of the Dominator III has been reduced by more than 500 pounds, making it significantly lighter than previous models, while maintaining stability and providing extra lift performance in critical work zones. Standard features: IMT Patented inverted A-Frame design Three-Point Access Package Multiplex Electrical System with Programmable Logic IMT Compartment Coating (VOC-compliant polyurethane modified multicolor spray finish) Workbench Bumper
